Dear Richard

Recognition of STEMI by Paramedics and the Effect of Computer Interpretation (RESPECT) Study.

I am pleased to inform you that your supervisor has reviewed your project and classed it as 'low risk' so you can proceed with your research. The research must be conducted within the requirements of the hosting/employing organisation or the organisation where the research is being undertaken. You are also required to ensure that you meet any research ethics and governance requirements in the country in which you are researching. It is your responsibility to find out what these are.

I have received the necessary electronic copy of your application together with your Supervisor's decision in line with the new streamlined University Ethics procedure, which I will keep on file.

Yours sincerely
